Exhibition stands tour

9 different types of exhibition stands for the companies to choose from

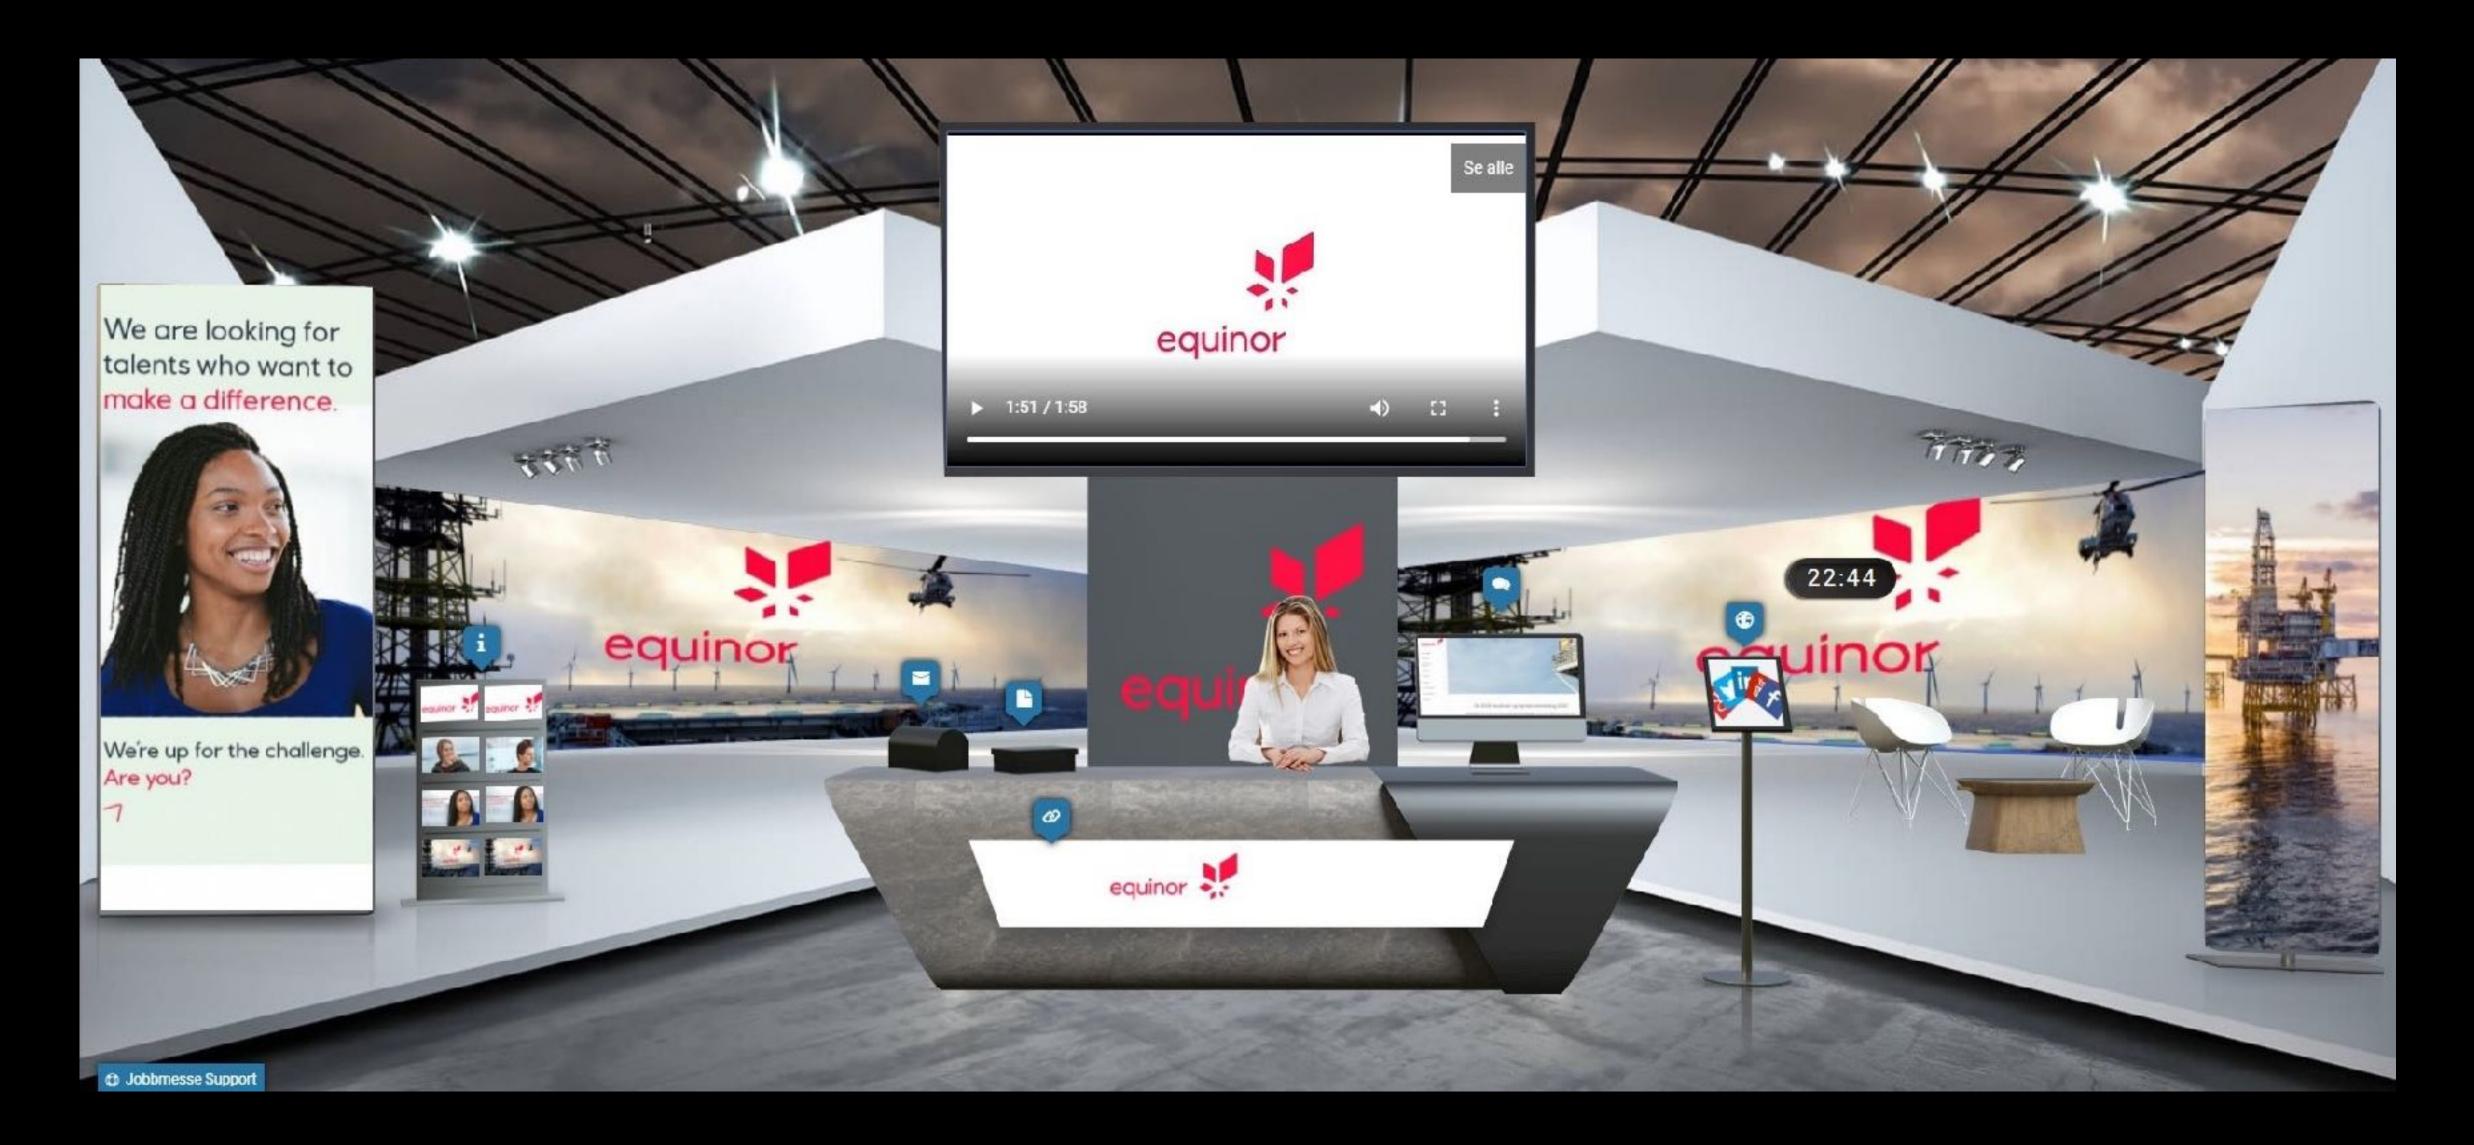

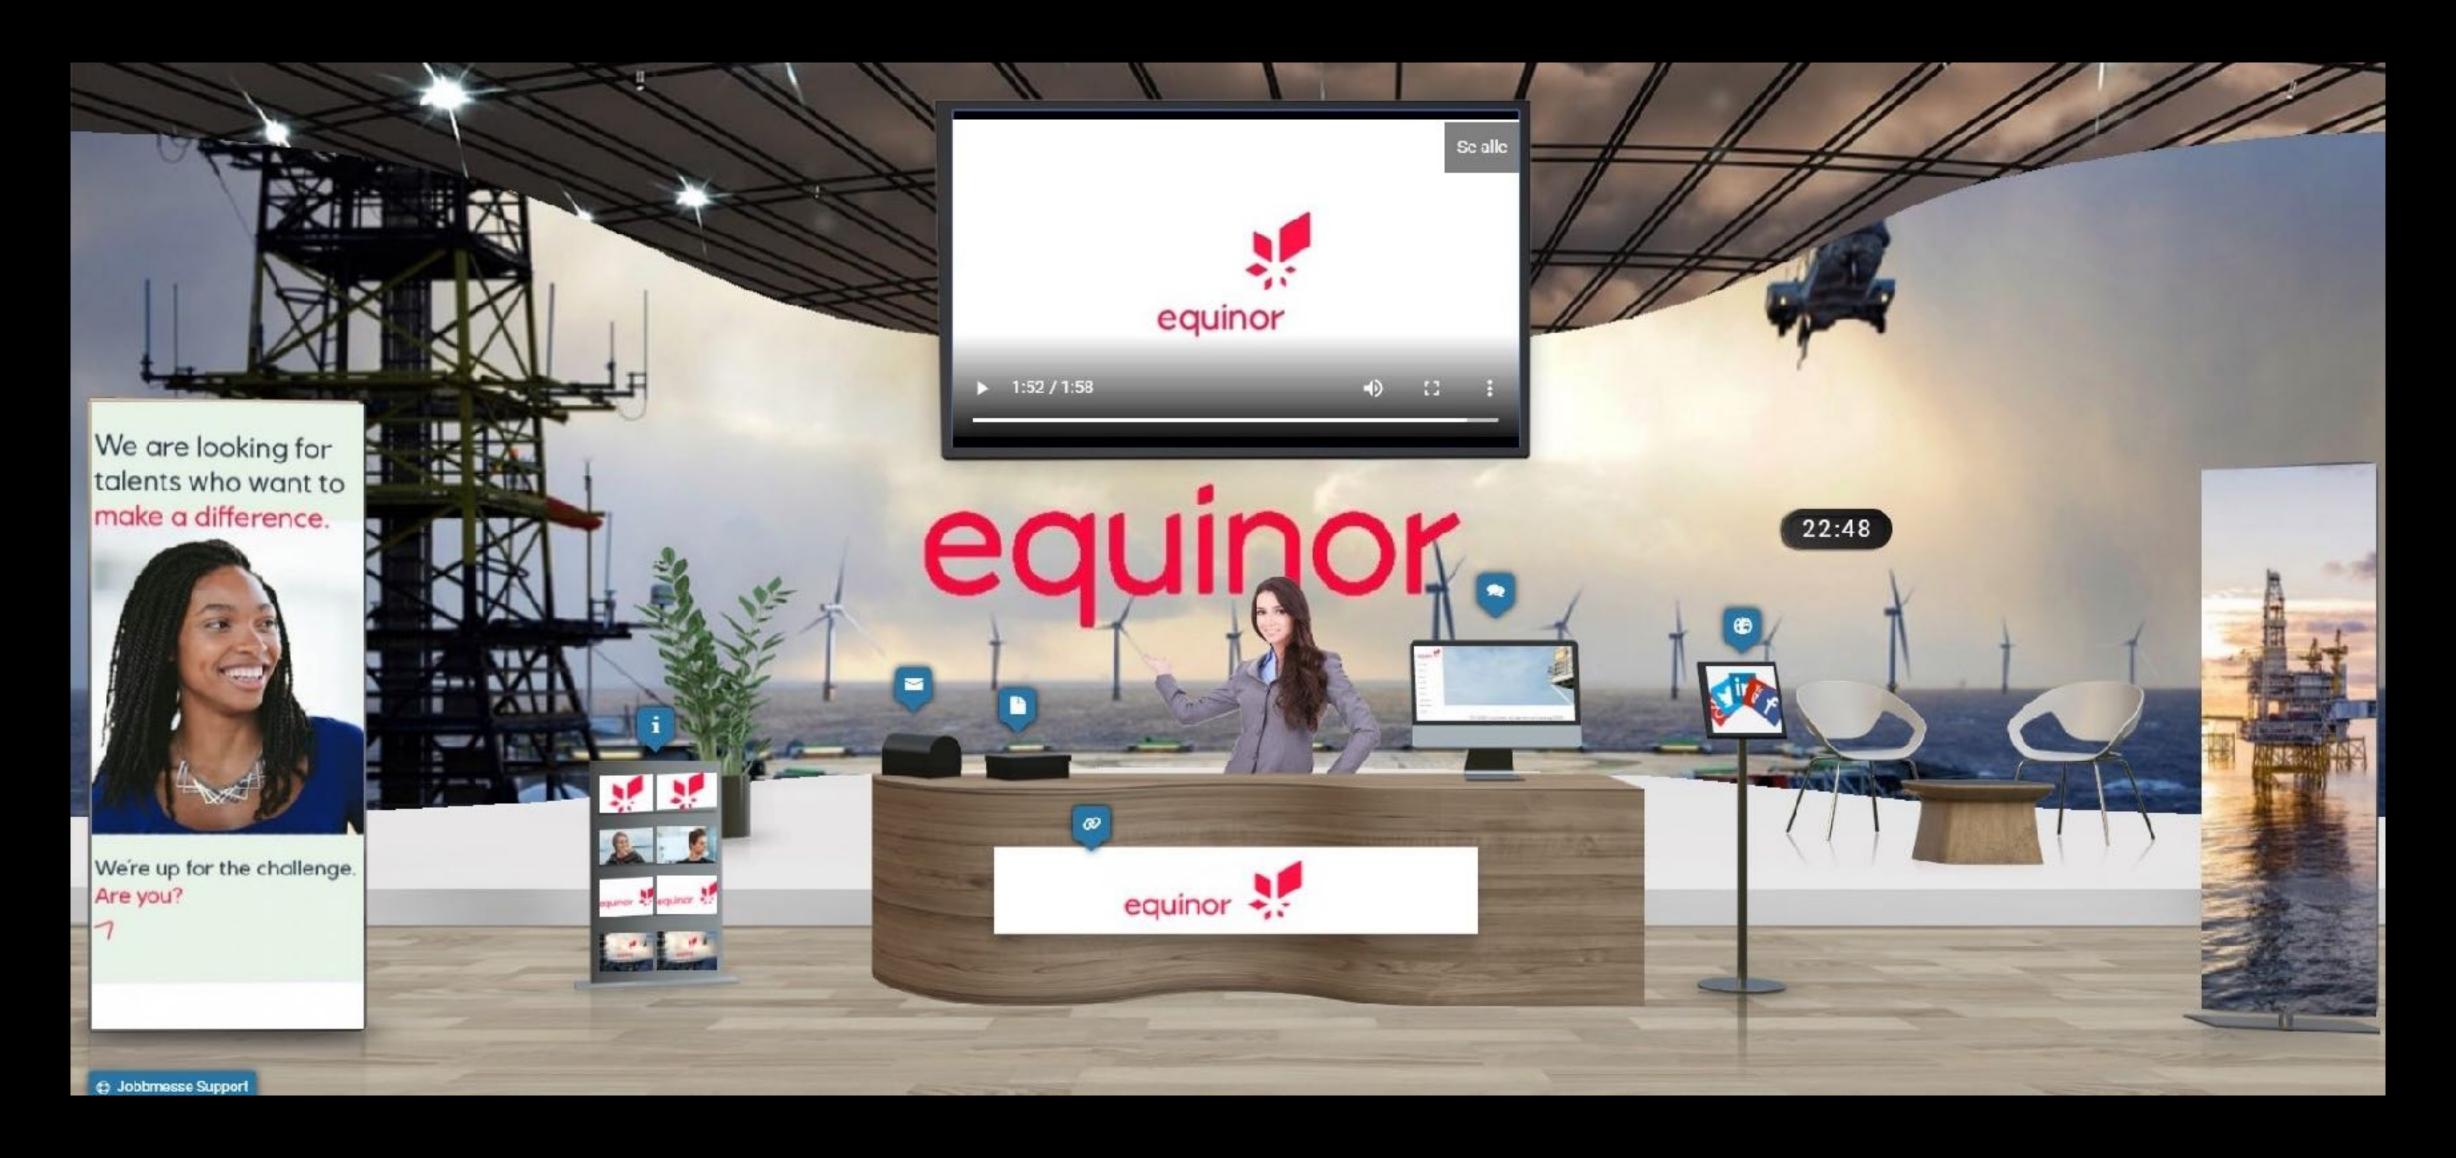

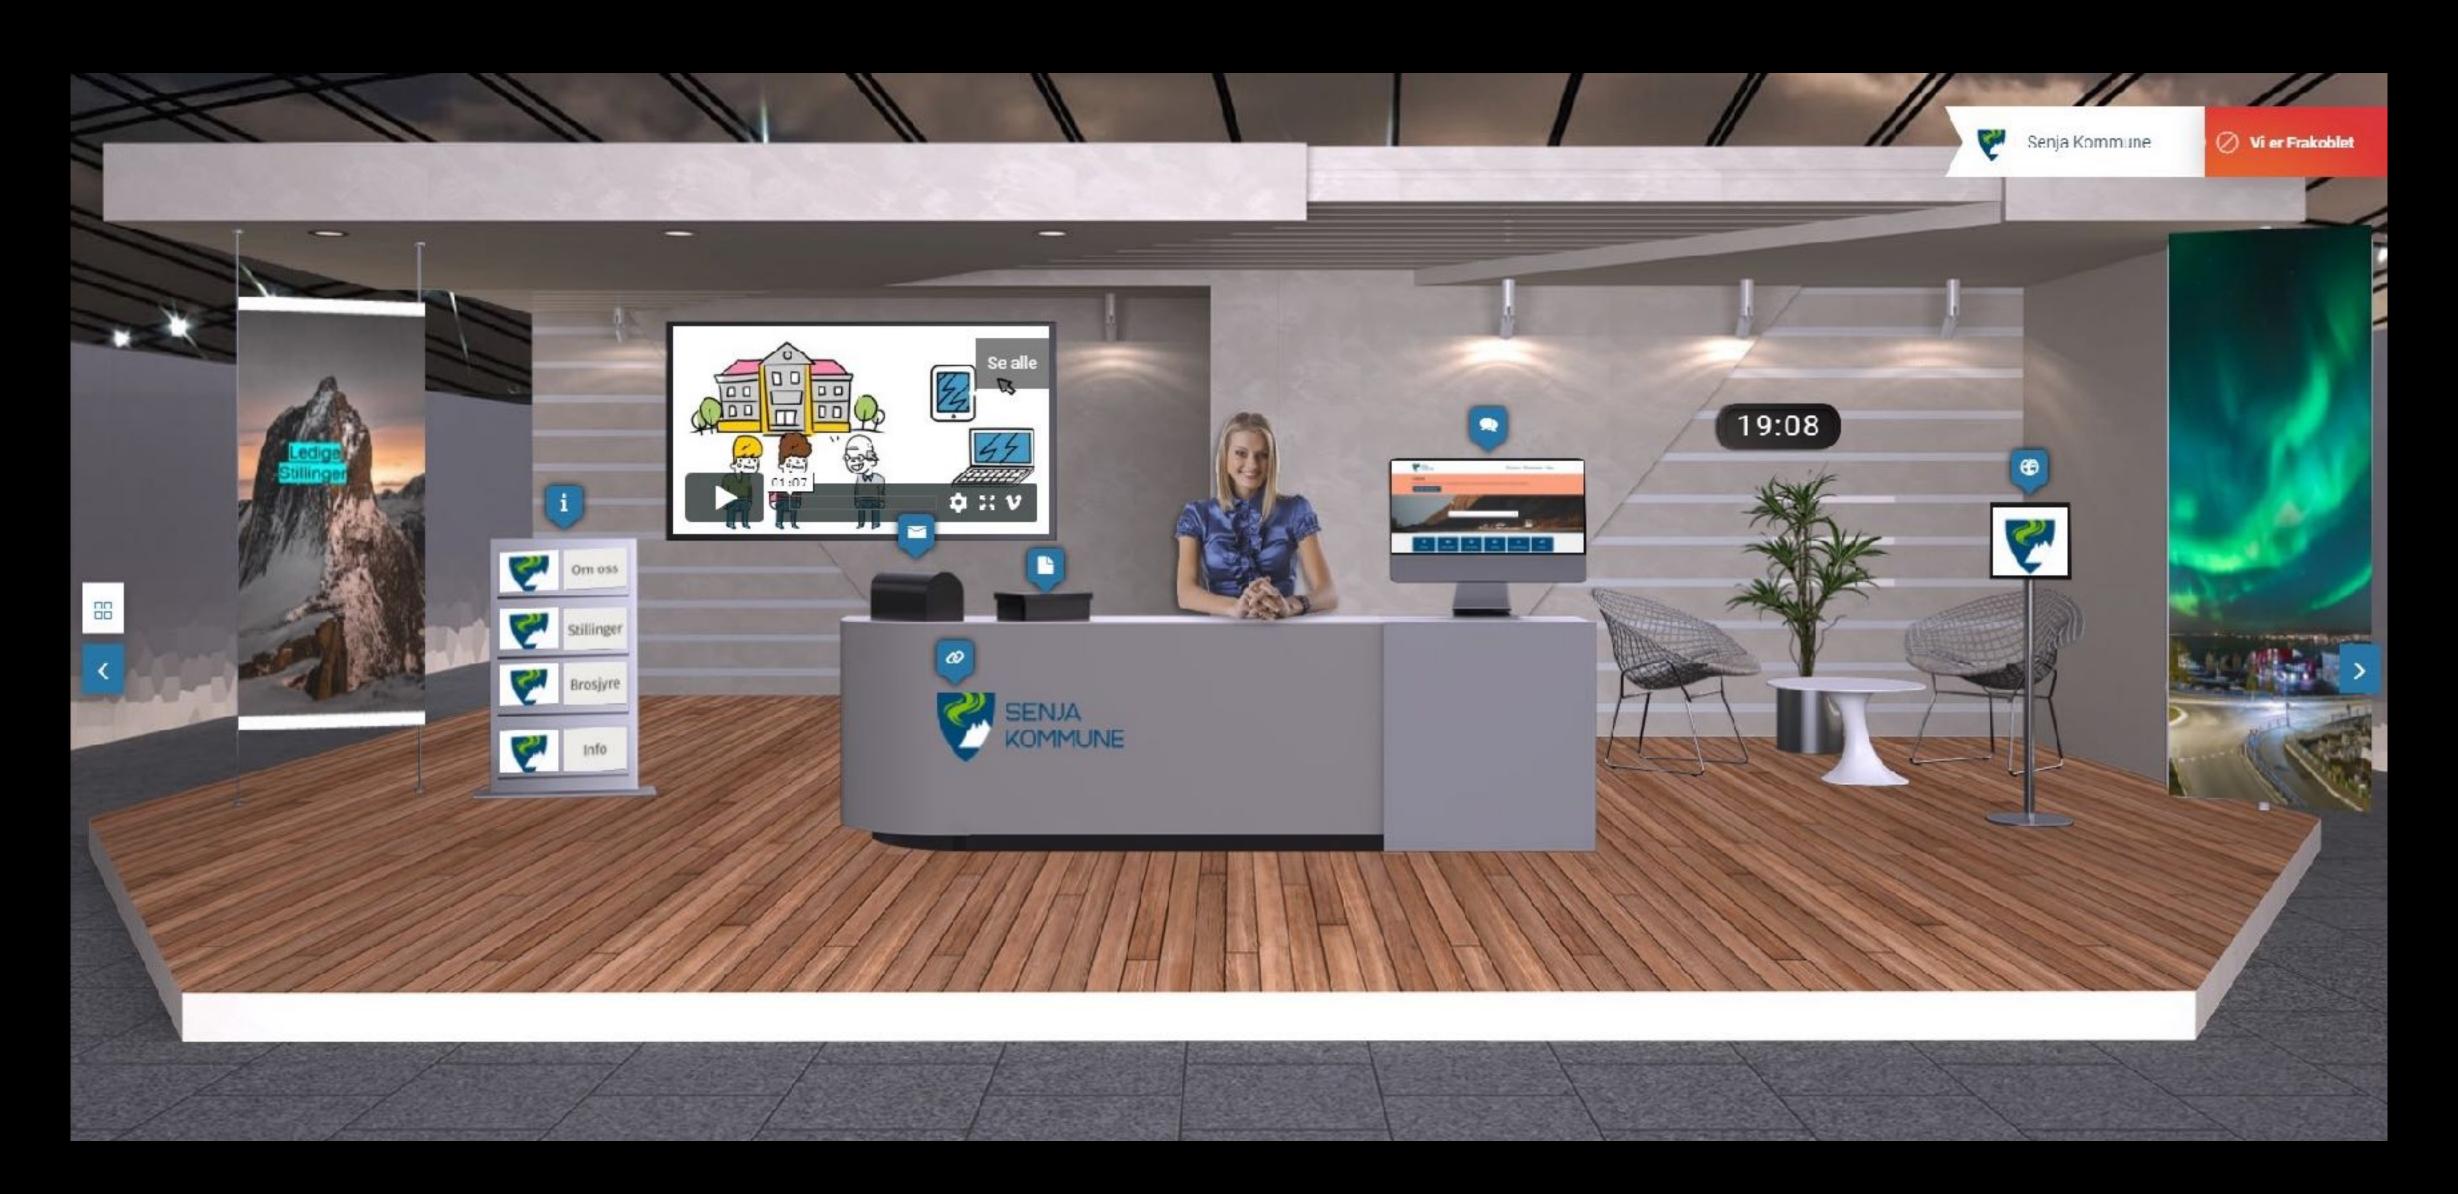

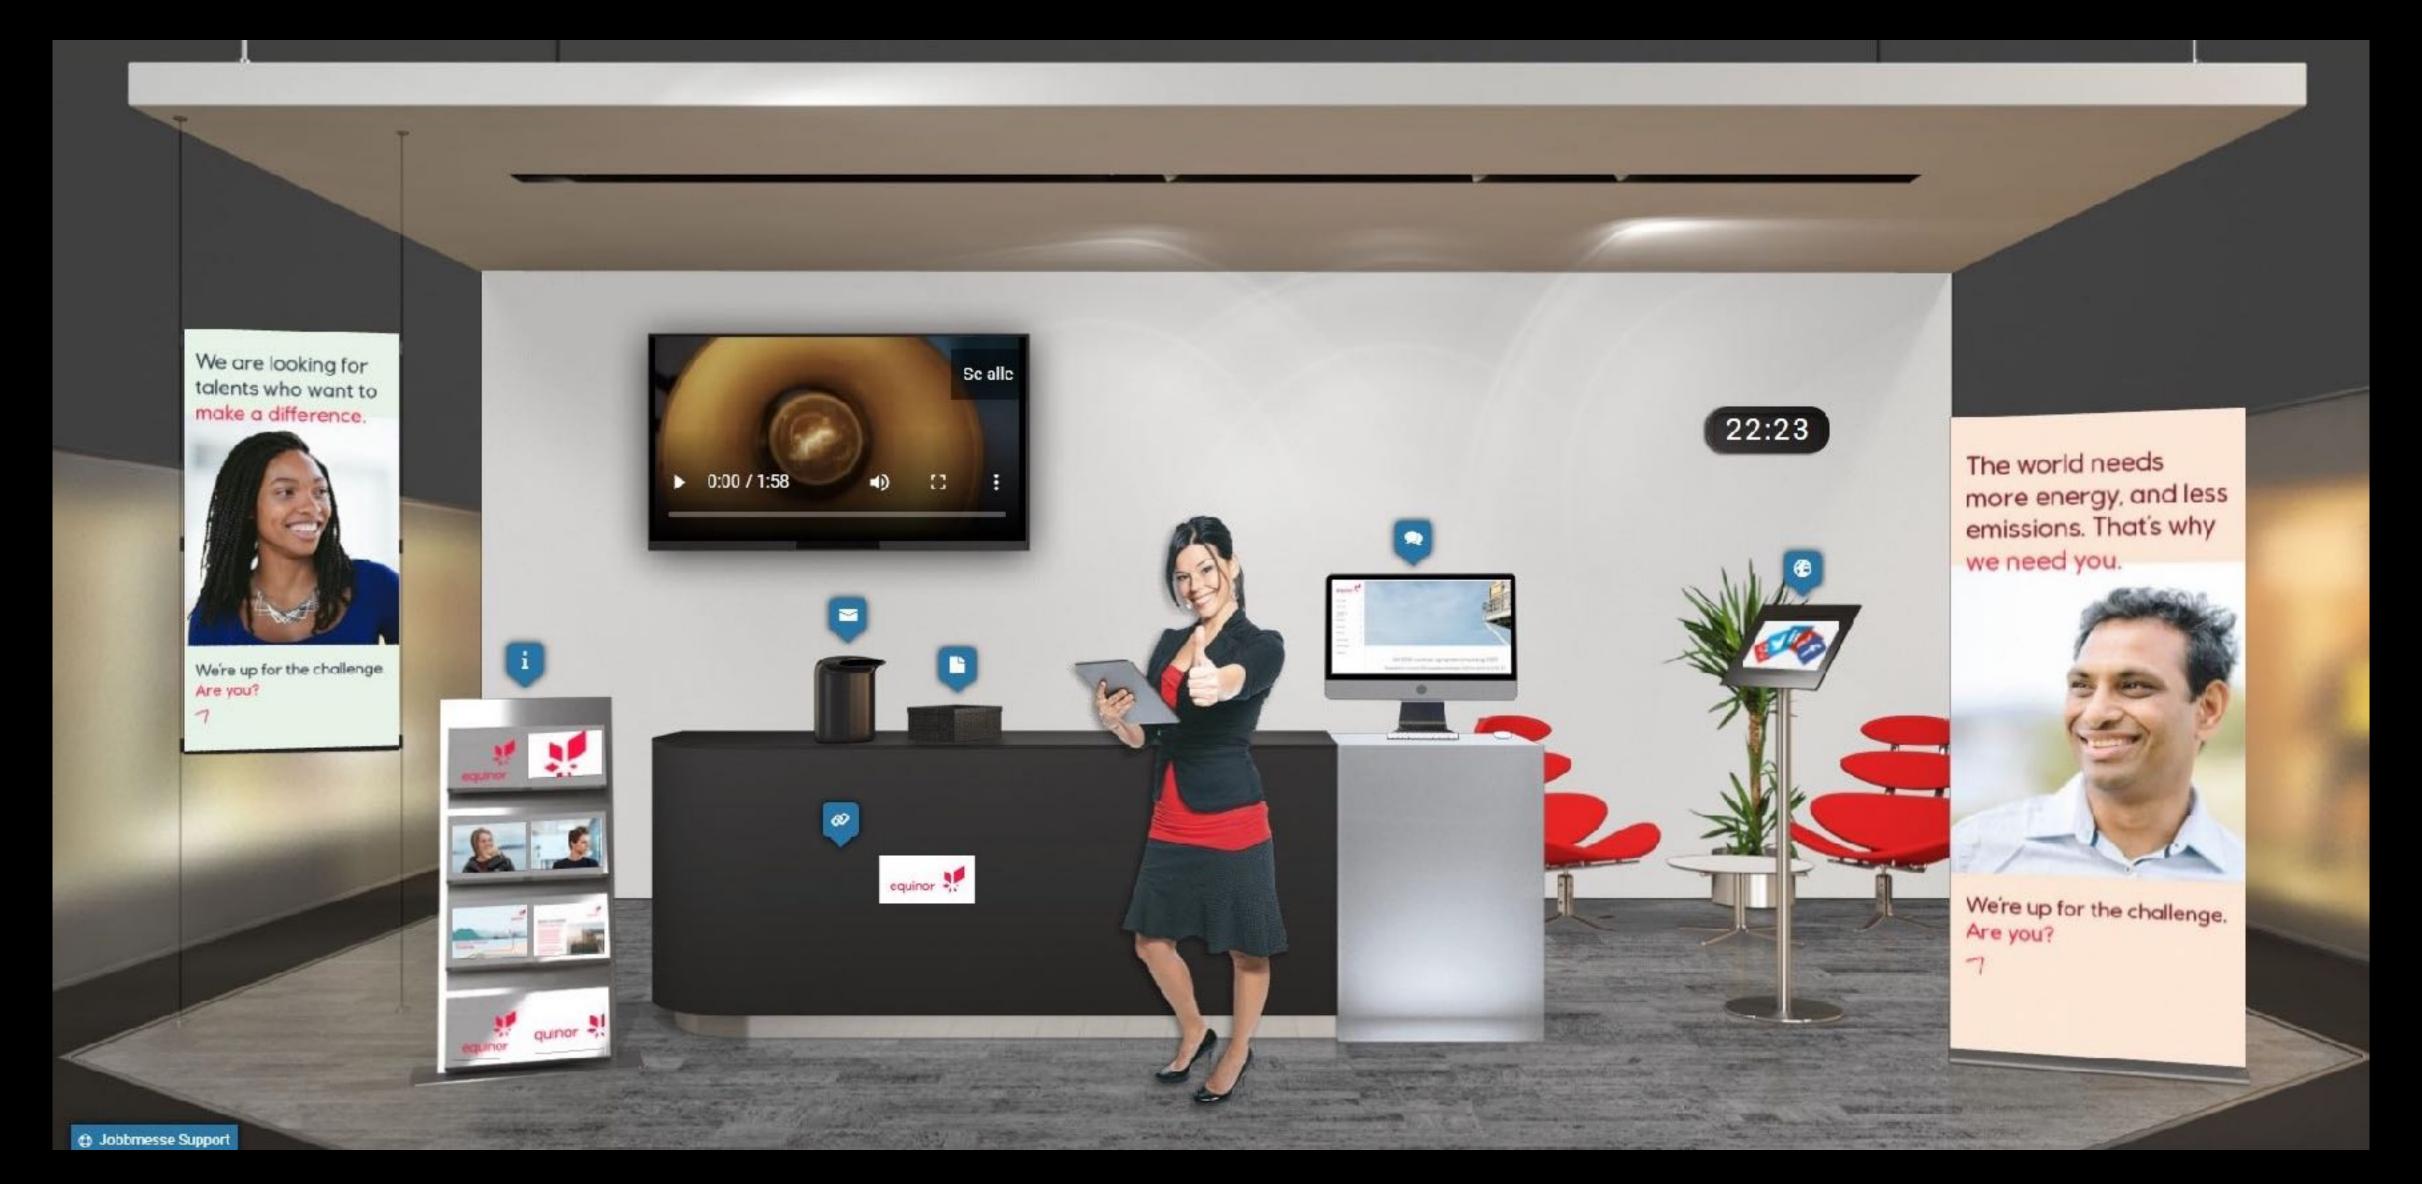

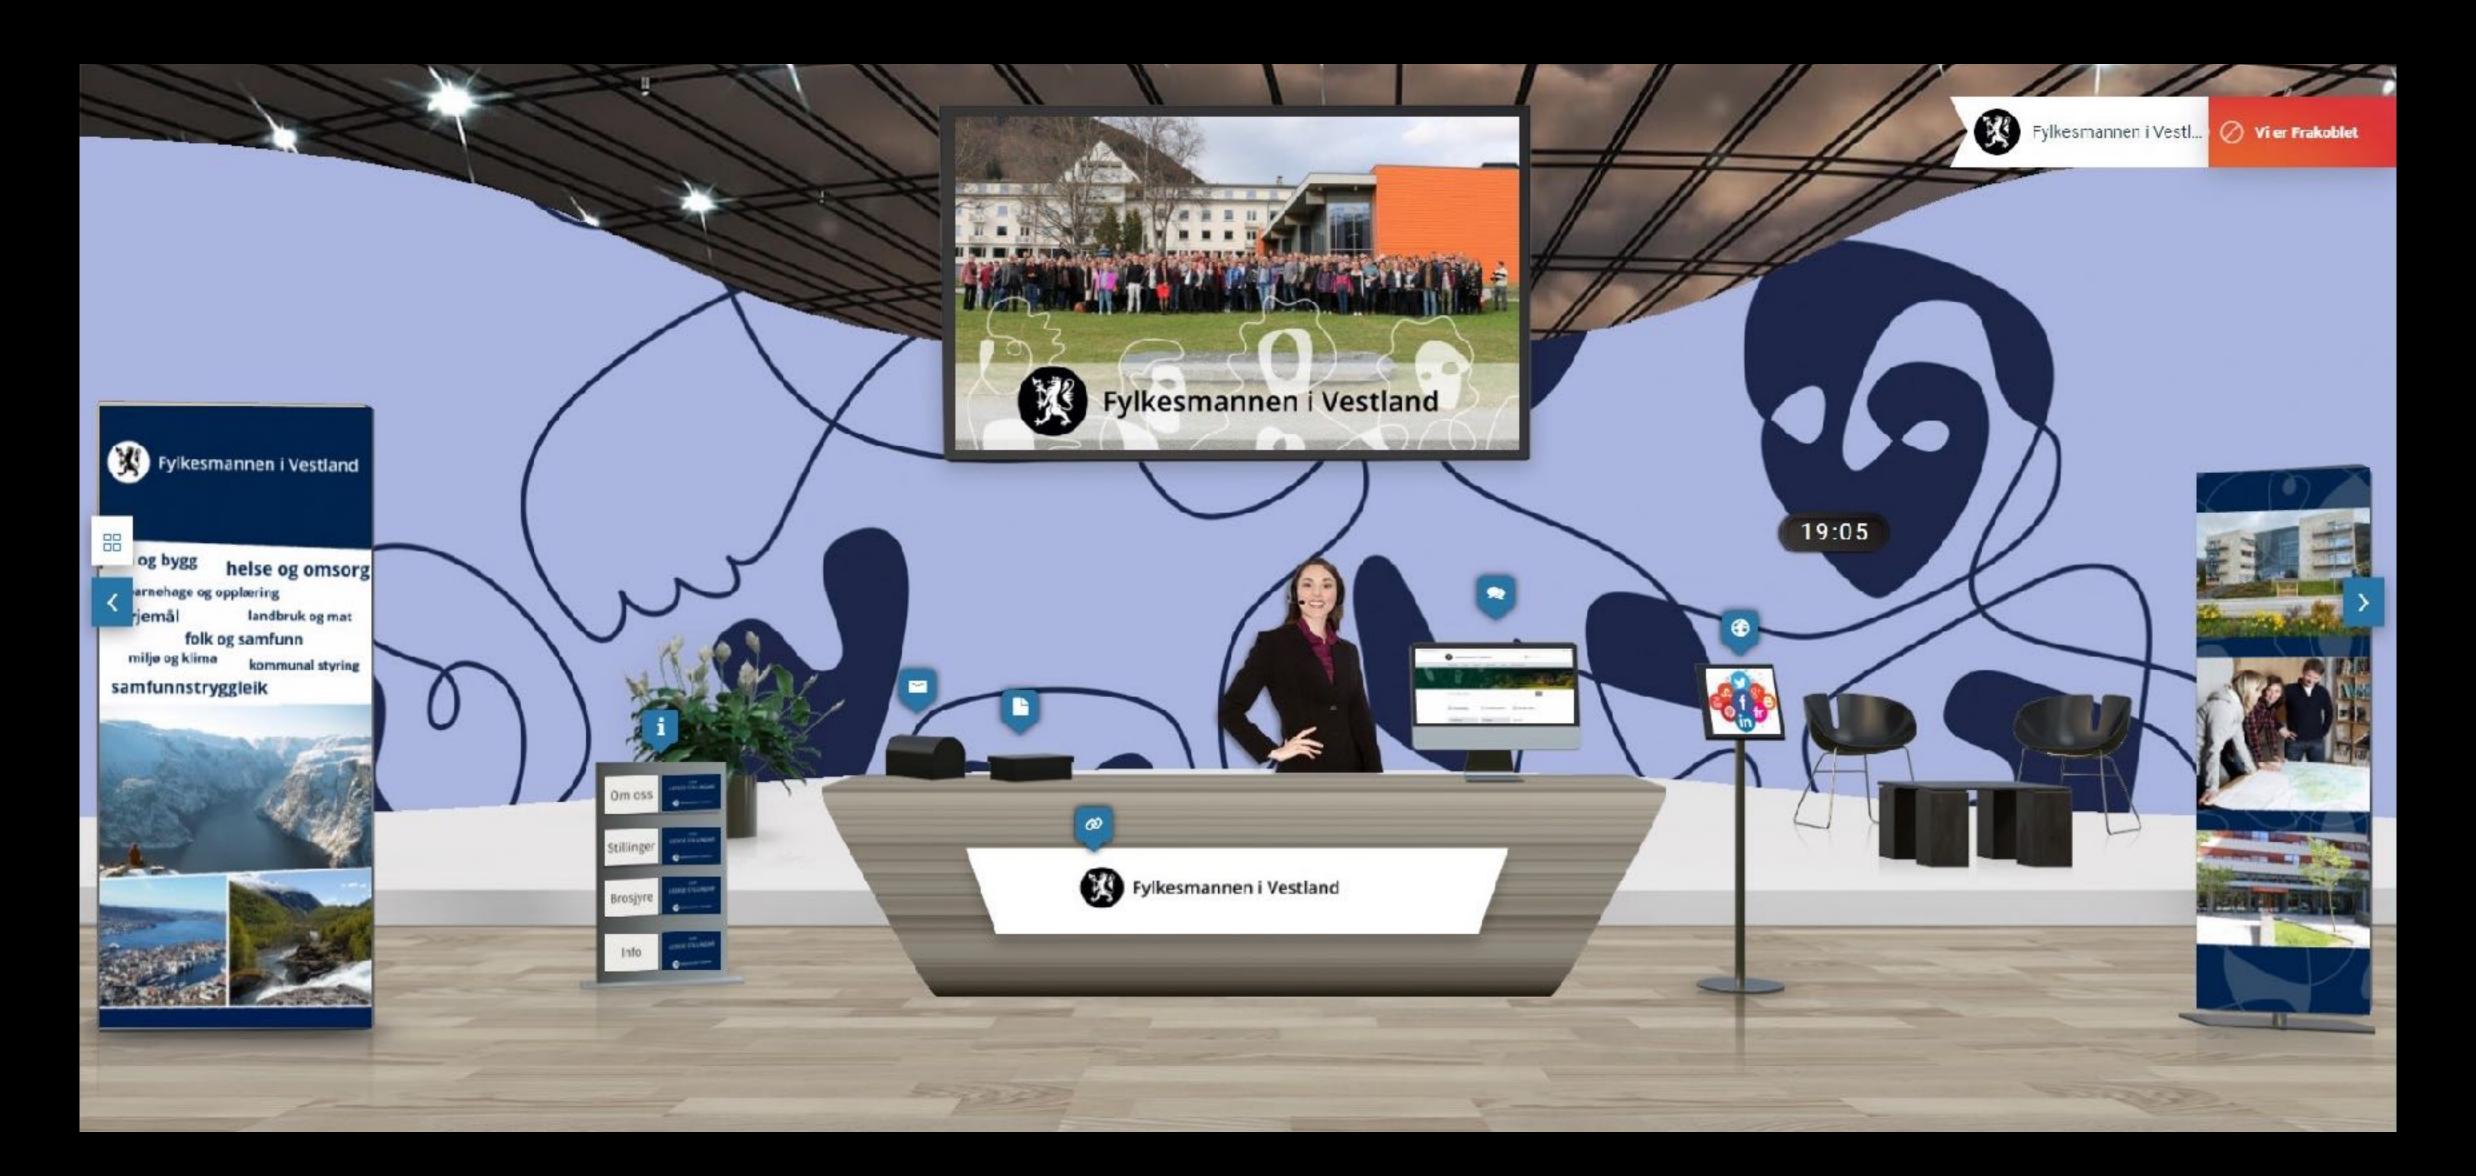

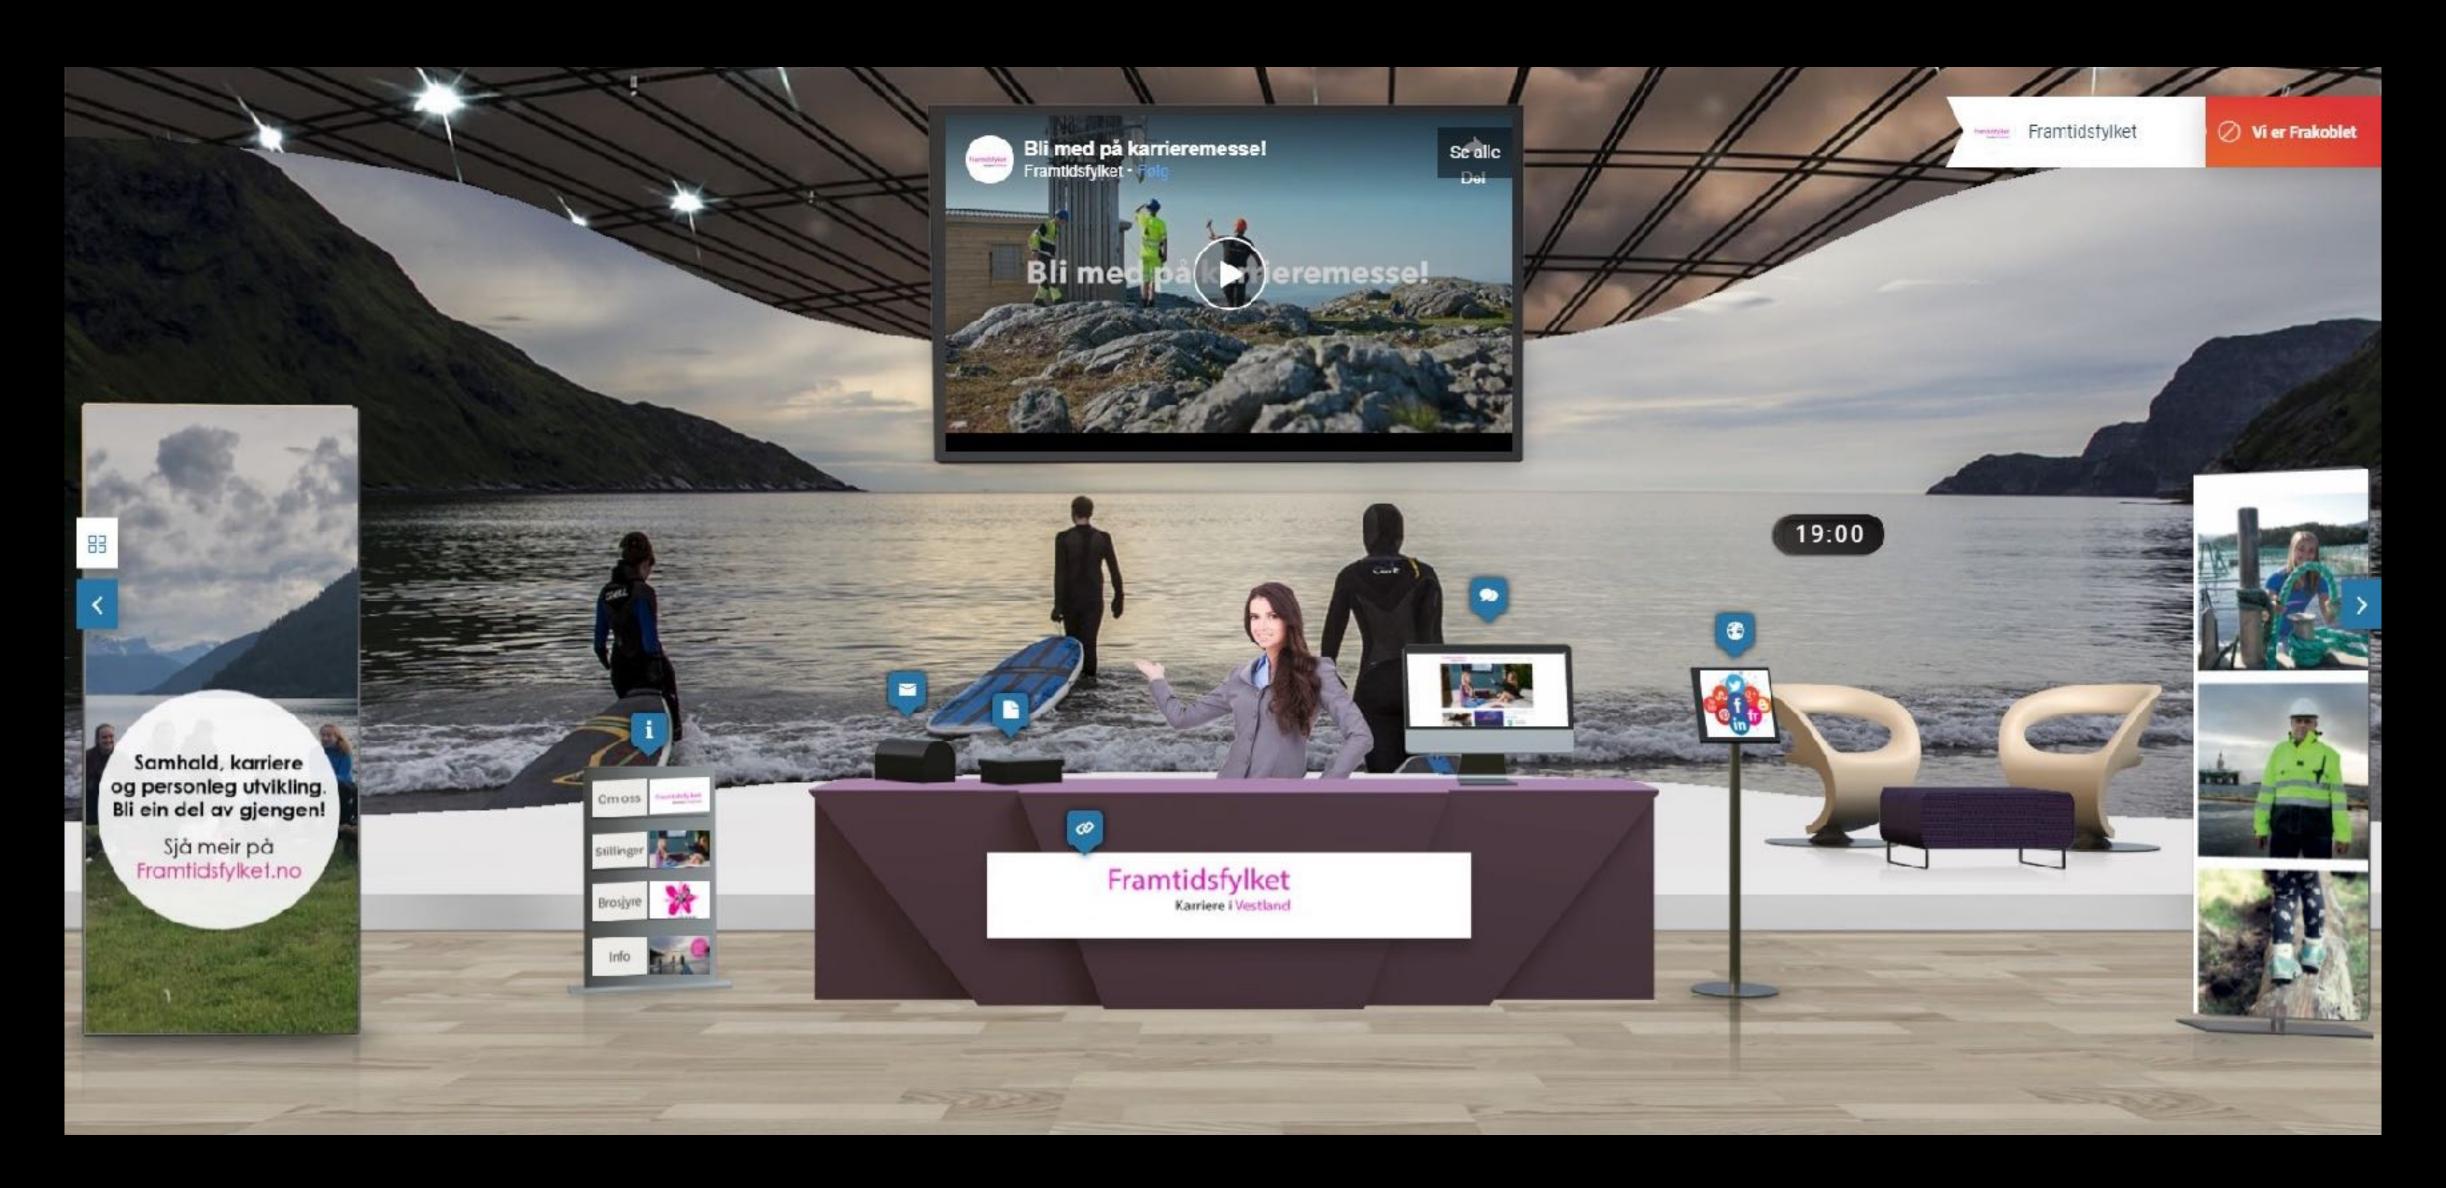

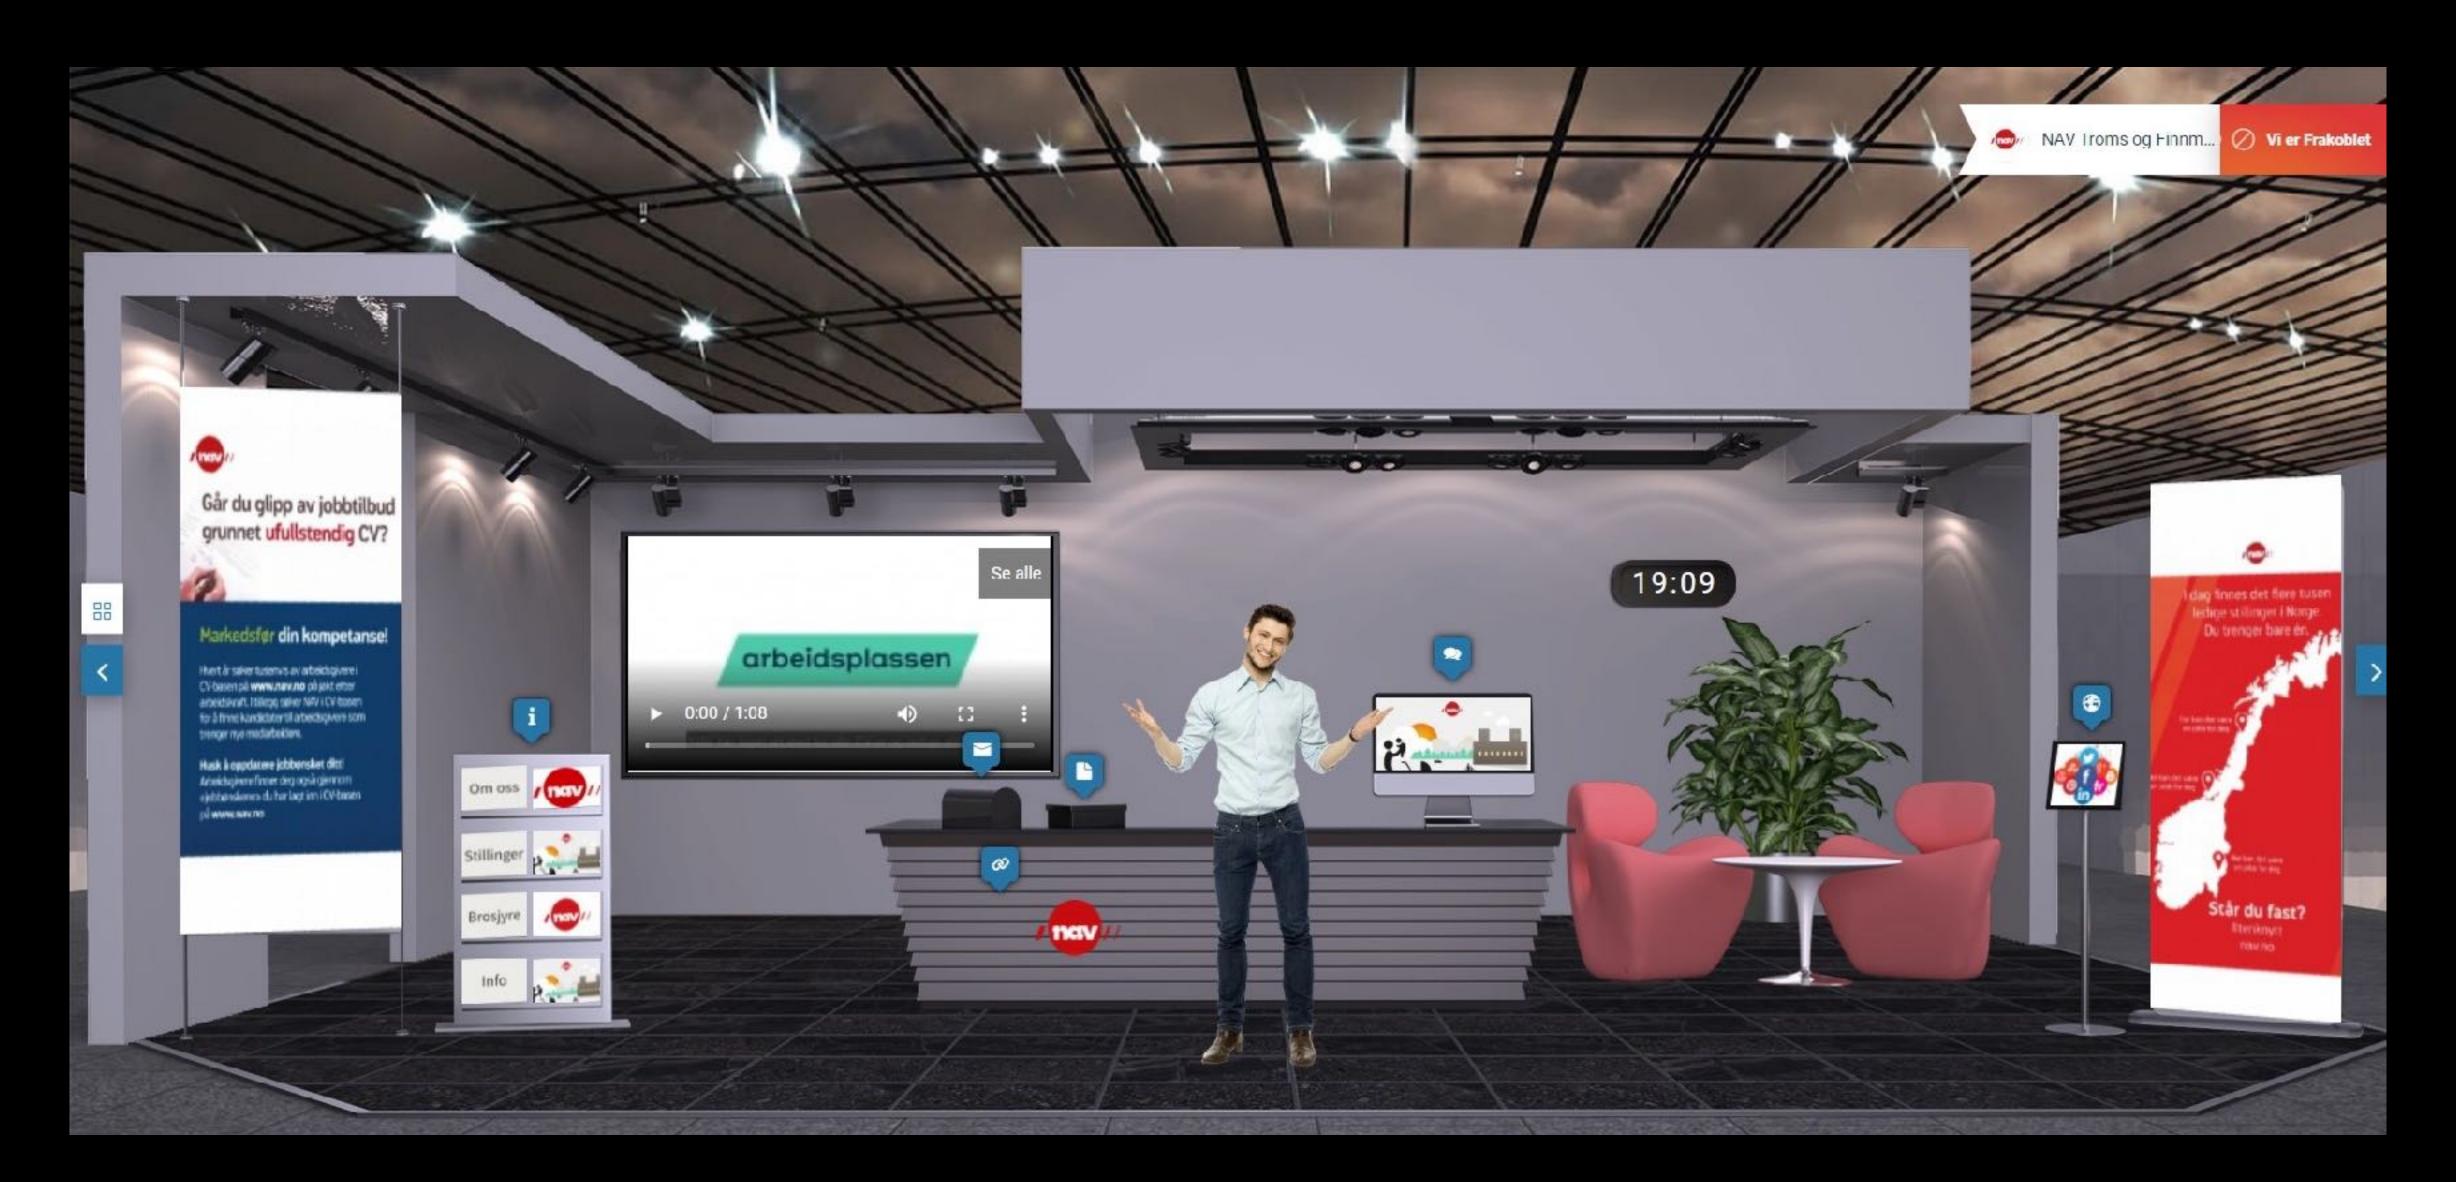

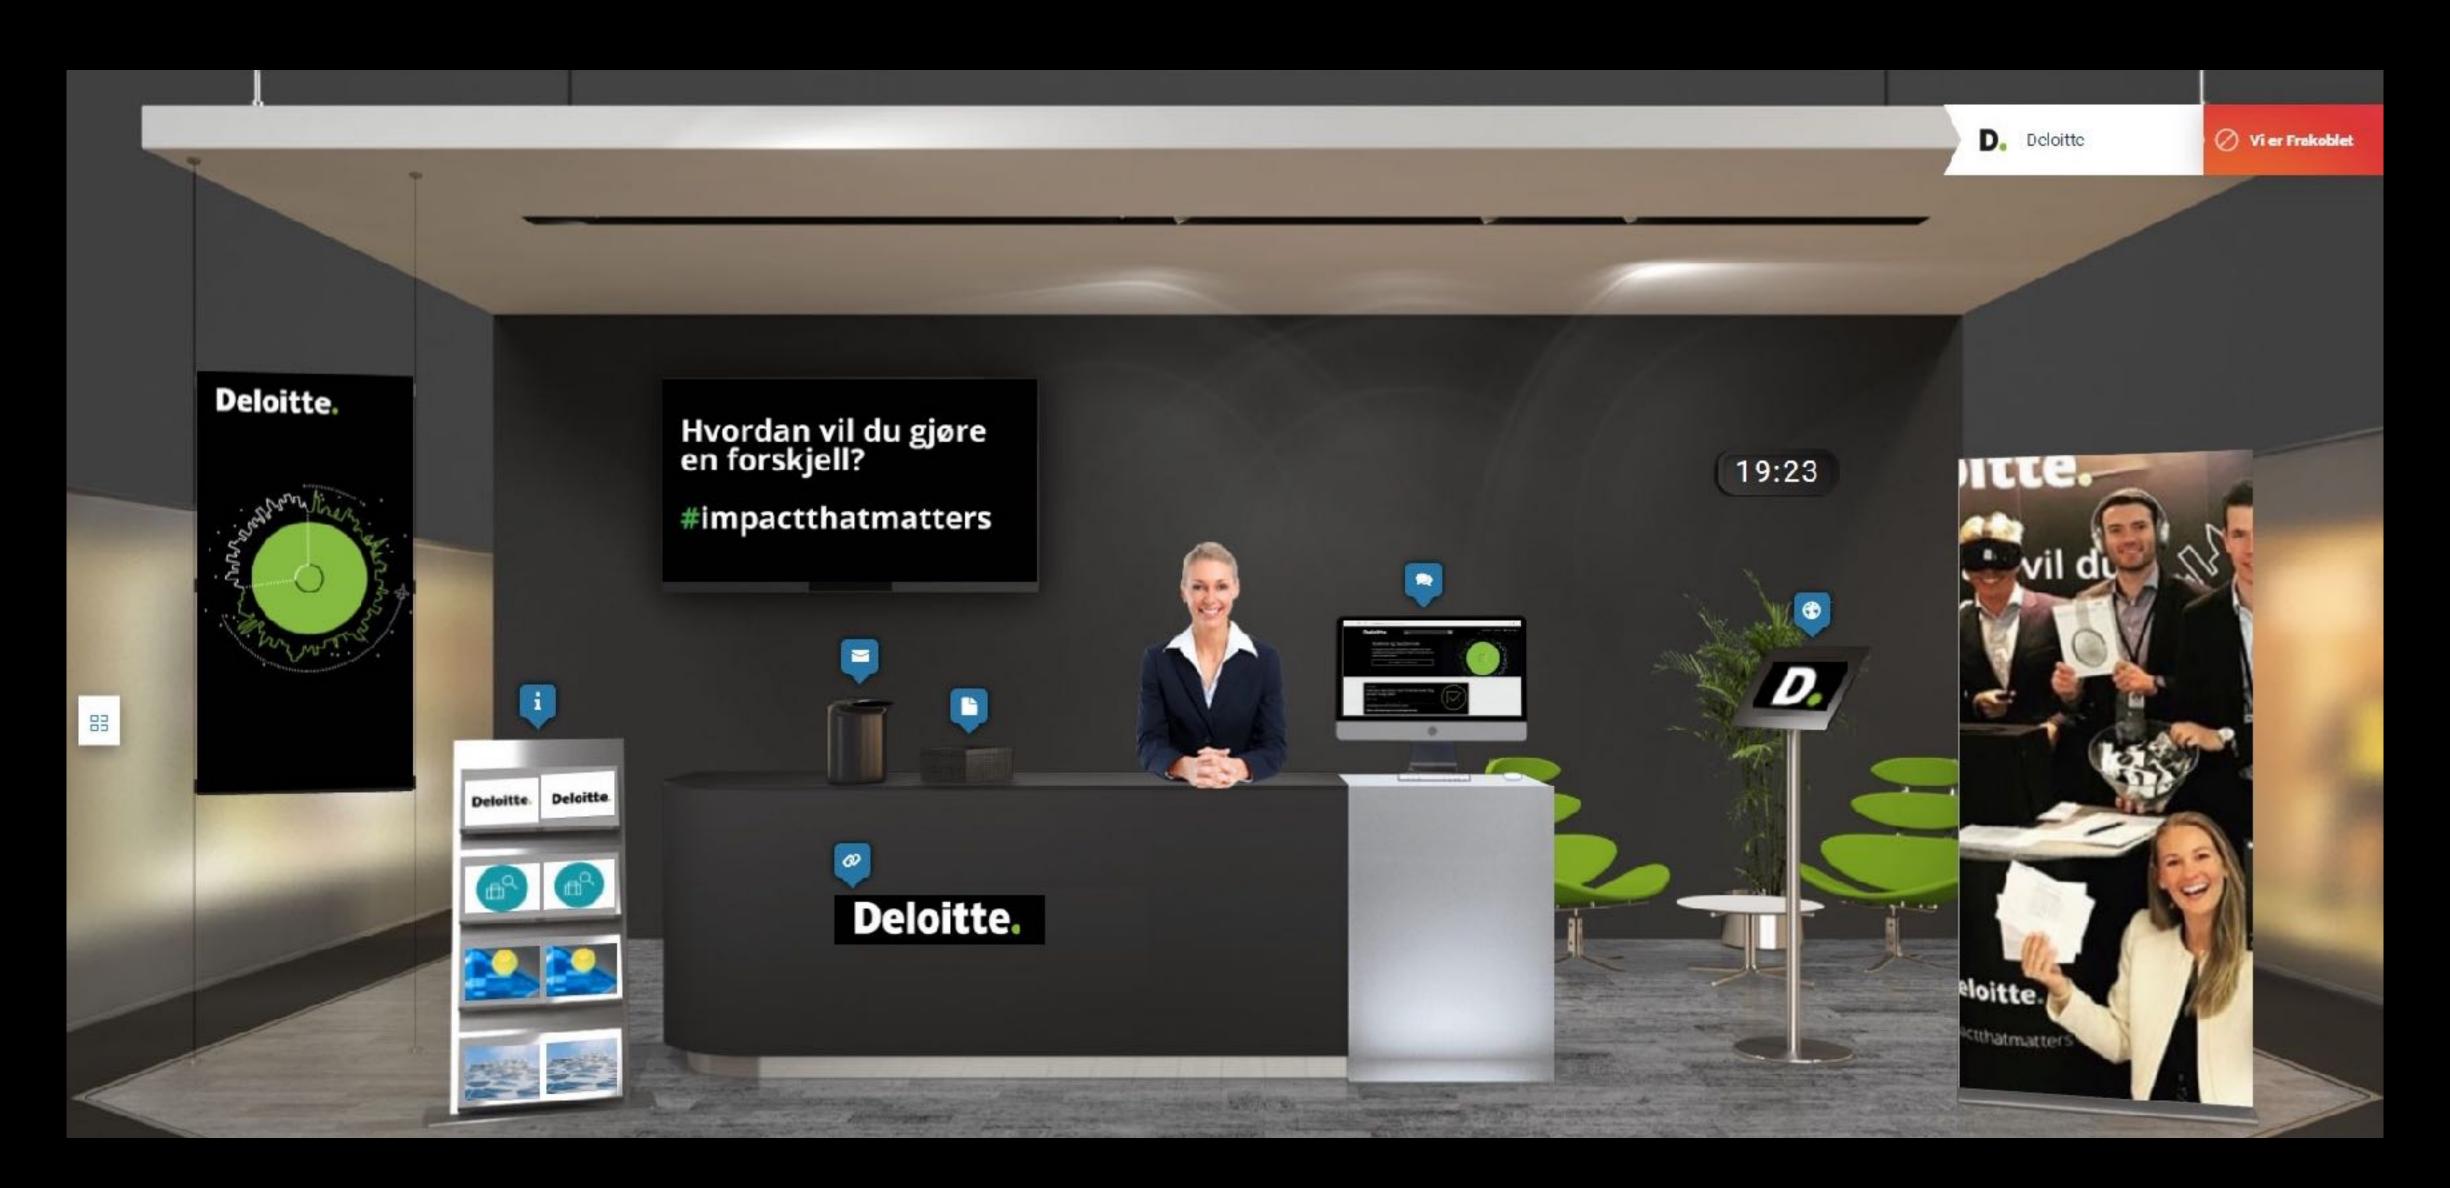

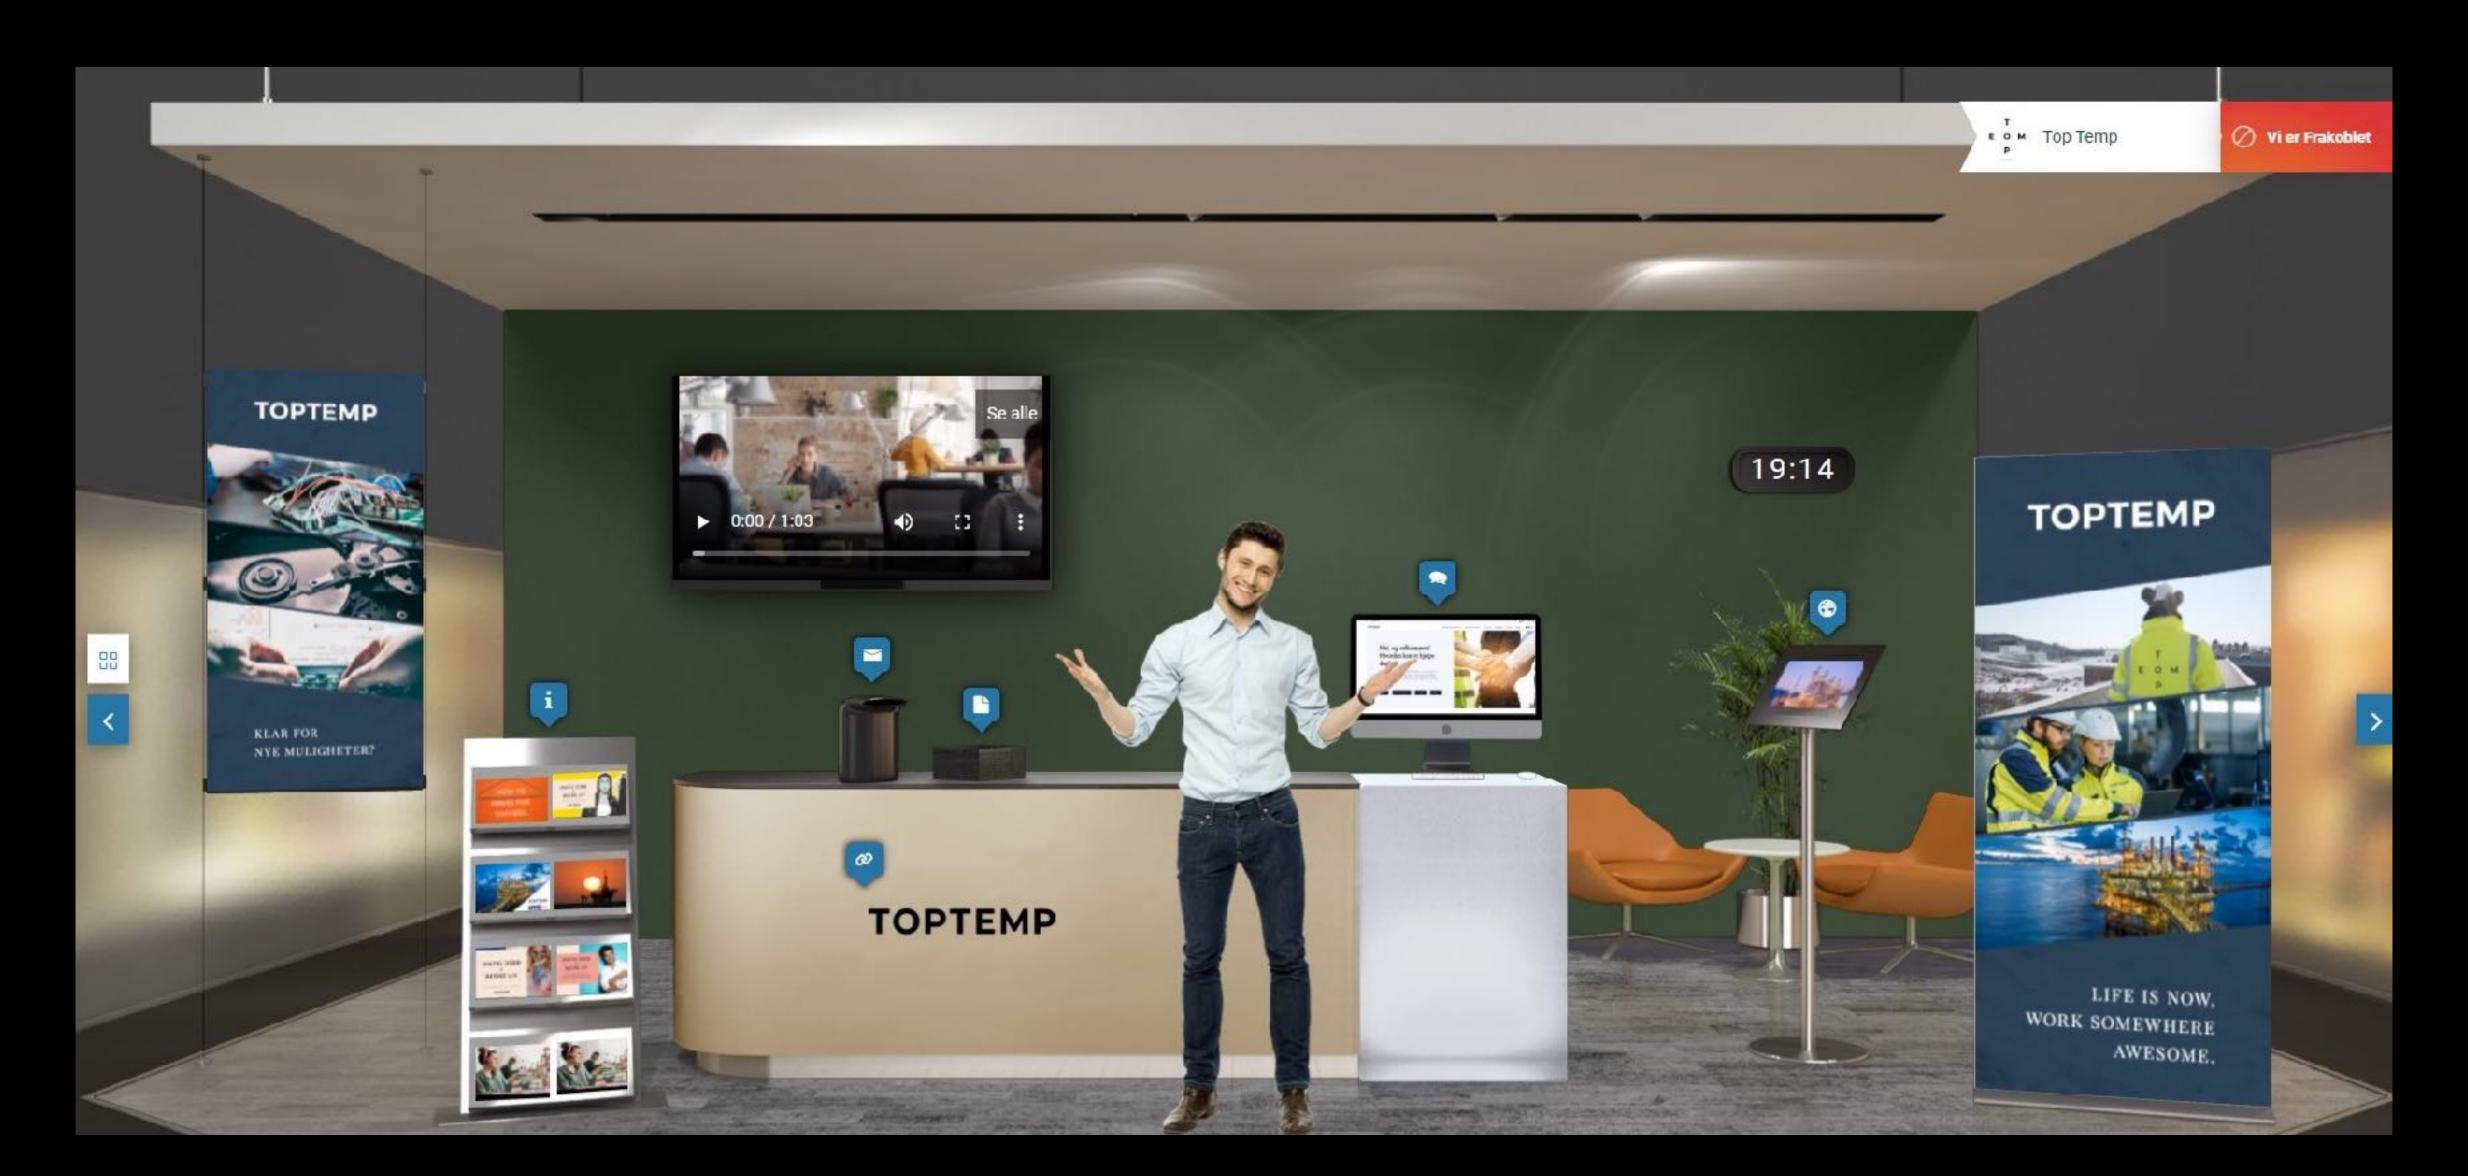

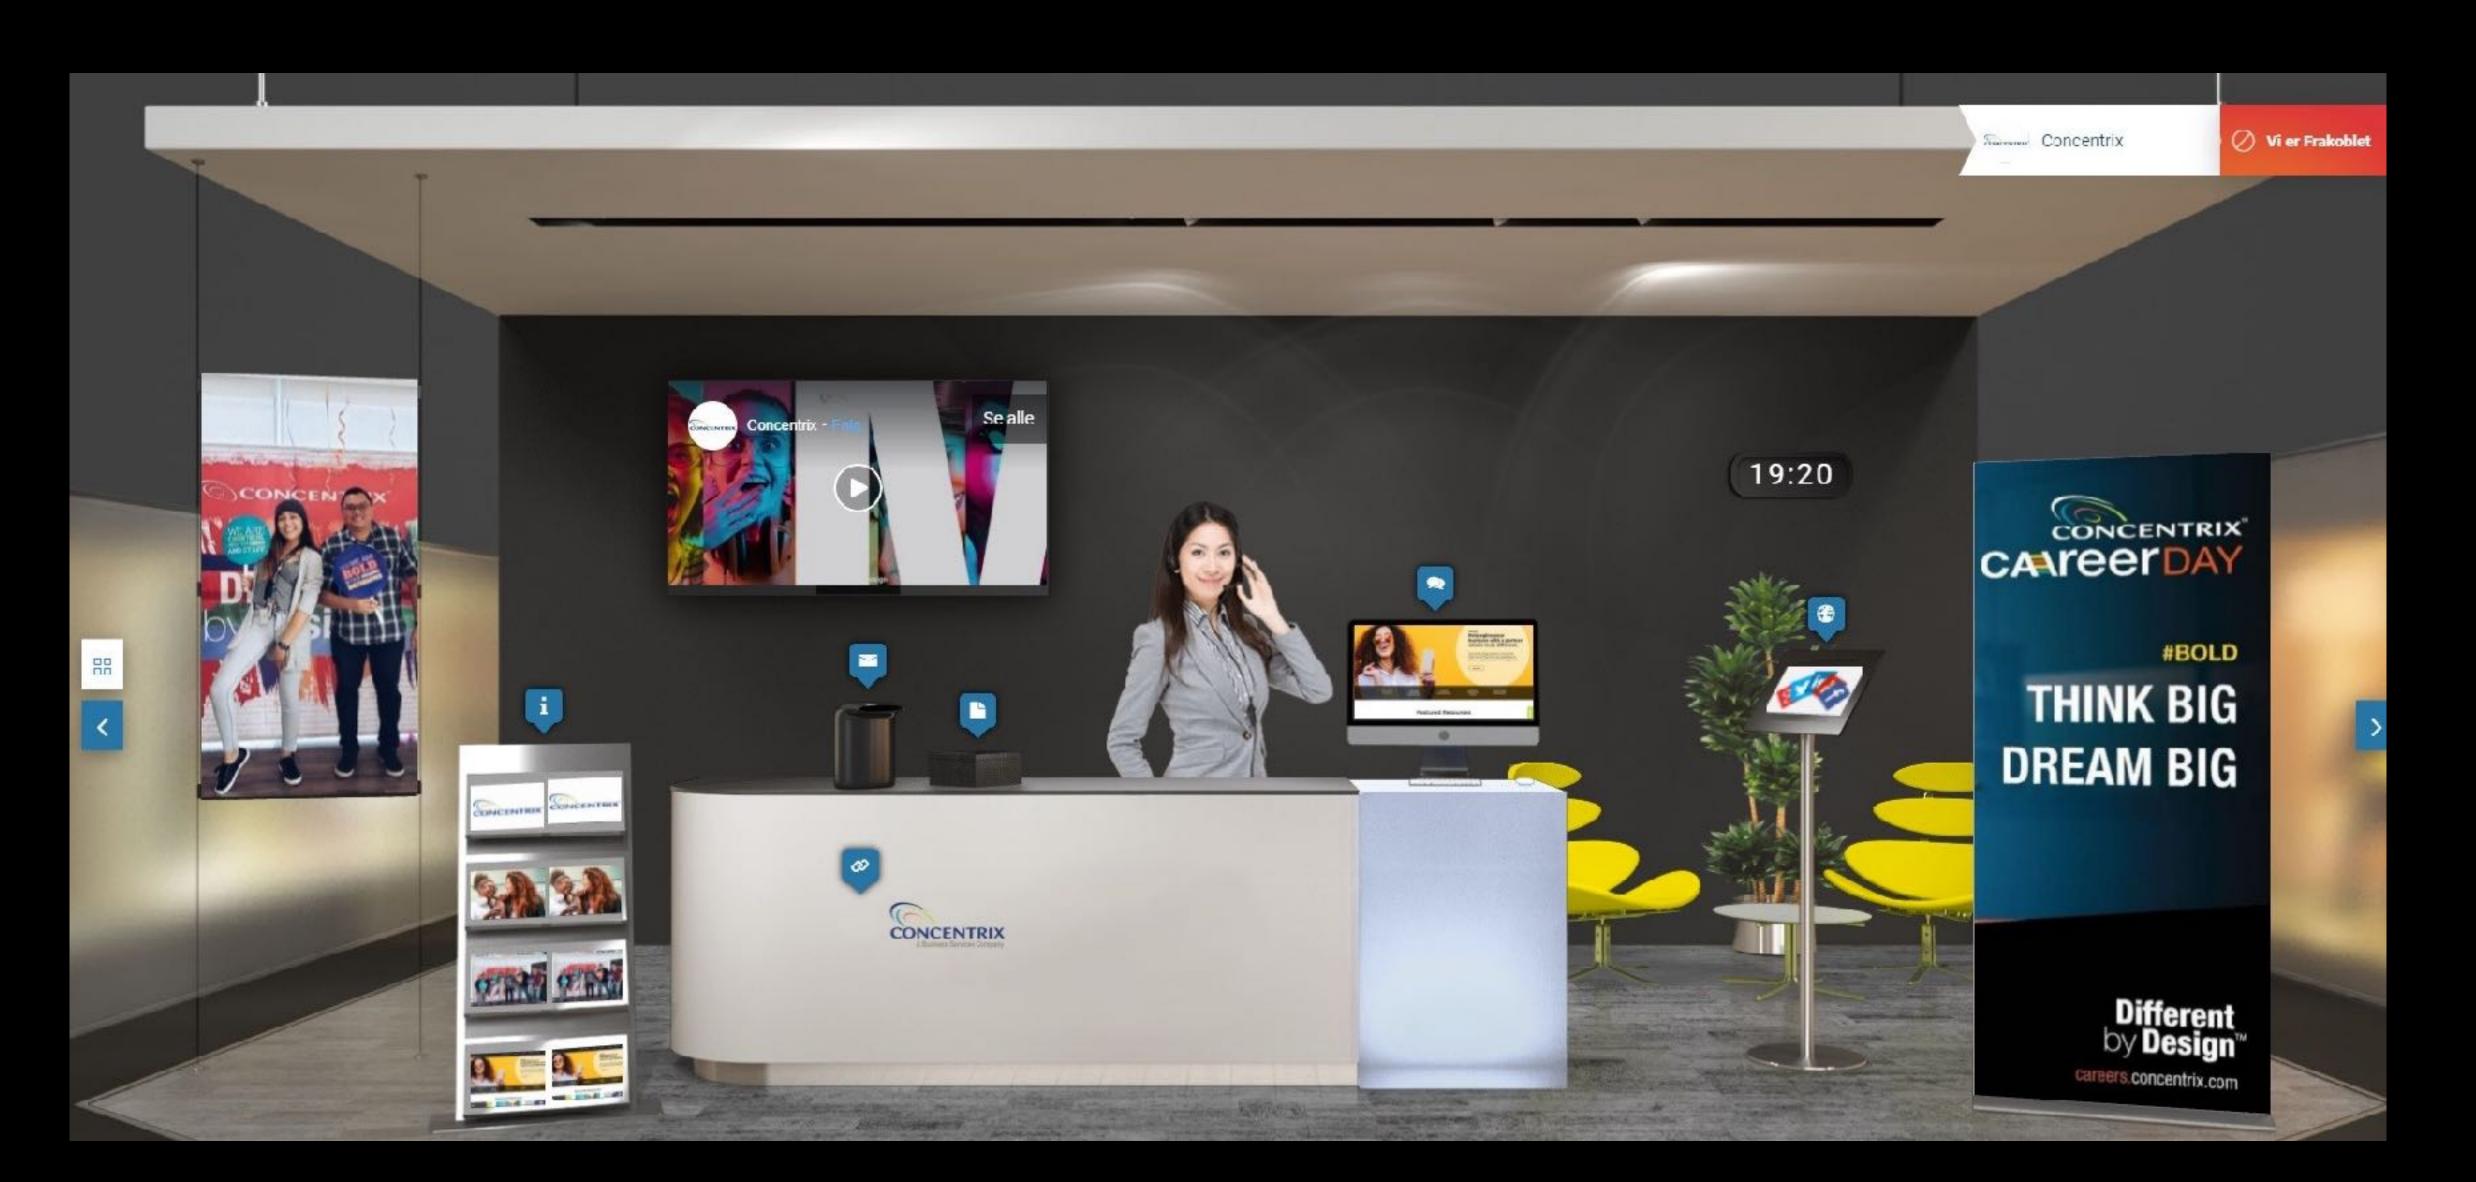

EXPOBO BENEFITS

Expobo is a digital event platform. We aim to revolutionize the way trade fairs are conducted. Our online platform is ideally suited to conduct trade fairs. Our digital fair platform offers the perfect blend of stunning design and user-friendly navigation.

Discover the many benefits of using our online platform such as user-friendly technology, cost-effective, eco-friendly, global mach, mobile friendly, customizable and easy-to-use and measuring tools.

COST EFFECTIVE

The first and most obvious advantage of virtual trade shows is that event hosts and/or exhibitors can save a lot of money on travel, lodging, promotional items, and other costly expenses typically associated with trade shows. The reduced cost of virtual exhibiting allows many more exhibitors to participate, which increases the value of the trade show on the whole.

BUILD YOUR EMPLOYER BRAND

You have an easy way to promote your employer brand to a targeted audience. You decide how your digital stand should look like and what to promote. No need for expensive roll-ups and transportation time - it's all happening online.

INCREASED EXPOSURE

The event "lives on". A physical conference lasts for the one or two days, then it is done. A virtual conference can have as many live days you'd like. Then, you can leave it up on-demand for 30, 60, 90 days or permanently so that attendees can access booths, presentations, documents, videos, etc. anytime.

NEW MARKETS

You will have the freedom to explore new markets without fear of blowing the annual budget. Because of the low overhead, you can dare to attend non-traditional trade shows you might not otherwise attempt.

WE OFFER TECHNOLOGIES THAT ARE RESHAPING CUSTOMER EXPERIENCE

Elevate your business with Virtual Reality (VR) and Augmented reality (AR)
